PRODUCT SPOTLIGHT

H. A. INTENSIFIER

Corrective serum that amplifies hyaluronic acid levels to visibly improve skin's firmness, texture, and plumpness

Injectable treatments instantly restore skin's volume, smooth away deep lines, and reduce fine lines and wrinkles. They are commonly used around the eyes, between the eyebrows, and on the forehead, lips, cheeks, and jawline. They are minimally invasive with little to no downtime

BOTOX®

Injectable treatment designed to temporarily treat moderate to severe fine lines caused by repeated facial expressions.

DYSPORT®

Injectable treatment designed to temporarily treat moderate to severe fine lines caused by repeated facial expressions.

RESTYLANE®

Hyaluronic acid filler indicated for the treatment of moderate to severe lines and wrinkles.

RESTYLANE® LYFT

Hyaluronic acid filler specifically designed for subtle lip enhancement, and the smoothing of wrinkles and lines around the mouth.

RESTYLANE® DEFYNE

Injectable filler designed with XpressHAN Technology to smooth out deep laugh lines (nasolabial folds and marionette lines).

RESTYLANE® REFYNE

Injectable filler designed with XpressHAN Technology to soften laugh lines (nasolabial folds and marionette lines).

RESTYLANE® SILK

Hyaluronic acid filler used to correct volume loss and treat wrinkles in the face.

PRODUCT SPOTLIGHT

C E FERULIC®

Patented, triple antioxidant vitamin C serum delivers advanced environmental protection, while improving the appearance of fine lines, wrinkles, and brightens skin's complexion

RESTYLANE CONTOUR

Injectable filler designed with XpresHAn Technology to restore cheek shape and definition.

RESTYLANE EYELIGHT

A hyaluronic acid dermal filler for the correction of undereye hollows, also known as dark circles.

SCULPTRA®

Stimulates the body to produce new collagen and underlying tissue to fill in wrinkles and elevate sagging skin.

KYBELLA®

The first FDA-approved prescription medicine used in adults to improve the appearance and profile of moderate to severe fat below the chin (submental fat), also called double chin.

PLATELET RICH PLASMA THERAPY (PRP)

Hair loss can be devastating to both men and women; Platelet Rich Plasma (PRP) therapy can help. This therapeutic option uses the body's own cells to stimulate skin rejuvenation, new hair growth, tissue regeneration and more. This treatment works by injecting a highly concentrated, platelet rich solution of your own plasma into the scalp. Leaving you with a fuller, healthier looking head of hair.

EPIDERMAL REPAIR

Therapeutic treatment relieves skin blotchiness, and improves skin comfort and texture for sensitive and post-procedure skin

BBL®

Laser treatments use light based-devices to help reverse the effects of aging and sun damage. There are a variety of laser treatments available targeting fine lines, wrinkles, redness, hyperpigmentation, and loss of firmness. These treatments are most effective as a series.

MOXI

A non-ablative laser treatment that provides a gentler approach to laser resurfacing. This treatment helps to improve the appearance of sun damage and signs of aging. Due to the minimal downtime needed and the gentleness of the technology, it's an ideal treatment for regular skin maintenance to keep your skin looking flawless for years.

HALO™

Combines deep dermal rejuvenation with epidermal renewal for a synergistic effect you can't get with any other treatment. Creates beautiful results without the downtime of more aggressive treatments.

ABLATIVE RESURFACING LASER (CO₂ ERBIUM LASER)

Laser treatment of choice for those who would like to achieve dramatic improvement in the appearance of their skin. This procedure successfully removes superficial lines to moderately deep wrinkles with less pain, fewer side-effects, and a more rapid recovery.

PRODUCT SPOTLIGHT

EPIDERMAL REPAIR

Therapeutic treatment relieves skin blotchiness, and improves skin comfort and texture for sensitive and post-procedure skin

TRL

The Contour Tunable Resurfacing Laser (TRL) is the solution for achieving excellent fractionated resurfacing results. This dual mode Erbium: YAG resurfacing laser that can help with visible signs of skin damage caused by the sun, environmental toxins and the natural aging process.

PULSE DYE LASER

A specialized laser to target and treat rosacea, spider veins, broken capillaries, and birthmarks. The laser delivers a concentrated burst of energy and is absorbed as heat by the blood vessels. The remnants quickly clear away leaving a natural skin tone. These treatments are typically recommended in a series.

INTIMA

CO2RE Intima is an in-office, non-surgical treatment that uses laser energy to correct the physical changes caused by childbirth and the natural aging process. CO2RE Intima is a medical laser that delivers controlled CO2 energy to the vaginal or vulva tissue causing cells to make more collagen while also improving skin tone, texture and appearance.

MICRONEEDLING WITH SKINPEN**PRICES STARTING AT \$450**

Discover the rejuvenating power of microneedling with SkinPen, also known as Collagen Induction Therapy. This FDA-cleared pen provides a safe and effective non-surgical treatment that addresses fine lines, wrinkles, acne scarring, and loss of elasticity by creating controlled wounds on the skin's surface. The body's natural healing process is then activated, boosting collagen and elastin to revitalize the tissue. Experience skin renewal with this minimally invasive procedure, suitable for most skin types and requiring minimal downtime.

FACIAL ELECTROLYSIS**PRICES STARTING AT \$45**

Facial electrolysis is an FDA-approved, precise, and effective method for permanent hair removal on the face. This technique utilizes a small electric current delivered through a fine probe inserted into individual hair follicles. The electrical current targets and disables the hair follicle, preventing future growth. It is a suitable option for various skin types and tones, offering a reliable solution to address unwanted facial hair concerns.

PRX DERM PERFEXION**PACKAGE OF 4 \$1,400**
